

Please do not allow NAB's petition 04-160 to be passed. As a person who travels all over the United States I personally benefit from this programming. Broadcasters are trying to stop from losing support from advertisers and listeners. I do not feel XM should be penalized for providing clean programming in which we pay for and this is a benenfit we receive. If the local broadcasters could provide us this type of service they would not be upset. It is time for them to share the wealth.Thank you. Kyle Stout
